

2024 Chinese Enrollment Prospectus for International Students

I . School Introduction

Located in Leshan City, Sichuan Province, between the world cultural and natural heritage sites of Leshan Giant Buddha and Mount Emei, our school was founded in 1951. It is a comprehensive full-time public higher education institution sponsored by the Leshan Municipal Government. It is also one of the first demonstration bases for international student education in Sichuan Province. We offer 48 majors in fields such as medicine and health, finance management, tourism management, electronic information engineering, mechanical and electronic engineering, and new energy, with over 15,000 full-time students enrolled.

Adhering closely to the "Belt and Road" initiative, we have developed a relatively complete talent cultivation model for international students. Since 2011, we have pioneered the full-time enrollment of international students in vocational colleges in Sichuan Province. To date, we have enrolled nearly 700 students from 19 countries. Currently, there are 206 international students studying at our institution. We offer international students three-year degree education, one-year Chinese language training, non-degree skill training, and short-term exchange programs. Our programs cover various majors such as medicine and health, finance management, and engineering, and also include Chinese cultural courses such as

Chinese language, martial arts, calligraphy, and painting. Our international students have achieved a 100% pass rate in the HSK Level 4 Chinese proficiency exam. In July 2014, our institution was honored with the title of "National Advanced Collective for Education of International Students in China" by the Foreign Student Management Branch of the China Higher Education Association. In 2019, we received the "China-Thailand Vocational Education Cooperation Contribution Award."

2. Leshan Vocational and Technical College is divided into spring and autumn semesters each academic year. The autumn semester is scheduled to start in September, and the spring semester is scheduled to start in March, with teaching arrangements following the actual academic calendar. Students have winter and

summer vacations each year, and student holiday management follows that of Chinese students at our school.

3. **Degree Based on Vocational Education:** Students must complete the corresponding study courses and specified credits according to the requirements of their majors. Students who pass the assessment will be awarded a diploma.

Exchange Student and Customized Training Programs: Our school accepts exchange students and students for customized training in accordance with inter-school cooperation agreements, and student training follows the content of the agreements.

4. All international students studying in China must purchase medical insurance throughout their entire period of study to ensure their health and safety.

III. Scholarships and Financial Aid

1. Scholarships

In 2024, our school offers full scholarships, which cover a tuition fee of 12,000 RMB and an accommodation fee of 1,200 RMB. Within one month after submitting the application materials, the school will select the recipients of the full scholarships based on the applicants' materials. Starting from the second academic year, the full scholarships for students will be dynamically adjusted based on their performance and academic situation.

2. Living Allowance

A monthly living allowance of 600 RMB per student is provided, distributed at the end of each semester for a total of 8 months, amounting to 2,400 RMB per semester.

IV. Application Time and Process

1. Application Time

From now until June 20, 2024.

2. Application Process

(1). Download and fill out the "Application Form for Foreign Students to Study in LeShan Vocational and Technical College."

(2). Provide other required application materials as instructed and send them via email.

V. Application Materials

1. "Application Form for Foreign Students to Study in LeShan Vocational and Technical College."

2. Passport-style personal photo.

3. Scan of a valid passport (passport must be ordinary; if there is a Chinese residence permit, it must be scanned together).

4. Scan of Chinese proficiency certificate (if available).

5. Scan of original or certified copy of high school diploma in Chinese or English (for students who have not graduated, provide a letter stating the expected graduation date).

6. Academic transcripts during school, including courses and credits

(original or certified copy in Chinese or English).

7. Scan of recent health examination report (within 3 months of application).

8. Proof of financial status (including proof of deposits, bank statements, etc., demonstrating the financial situation of the student's family).

VI. Admission Process

1. Upon receiving the application, the school's admissions leadership team will review the application materials. If necessary, remote or face-to-face interviews may be arranged.

2. Admission results will be notified to students via email. Admission notices and other enrollment materials will only be sent to accepted students. Applicants who do not receive admission notices within the specified time frame will be considered not admitted.

3. Accepted students should bring the "Admission Notice" and the JW202 form to apply for an X1 visa for studying in China. Within 30 days of arriving in China, the X1 visa should be converted to a study residence permit. Failure to complete the relevant procedures on time will result in expulsion. The school does not accept students with non-study visas for enrollment.

4. Accepted students must register at the school according to the reporting date and location specified in the "Admission Notice."

Early reporting is generally not accepted.

5. During registration, original graduation certificates, language proficiency certificates, etc., will be verified. Failure to provide certificates or failure in certificate verification, as well as providing false information or concealing information, will result in disqualification from admission.
